FAN ZONE RECAP COMMUNITY FEEDBACK

01. Fan Zone Recap

The Official Bremerton FIFA Fan Zone was originally planned for eight match days but expanded to include additional programming in response to strong community support and the success of the USA Men's National Team. The USA matches and the Final were our highest-attended events. Preliminary attendance estimates indicate more than 20,000 visitors attended Fan Zone programming over the six-week activation.

02. Community Feedback

Overall community feedback was overwhelmingly positive. Throughout the tournament, we continually evaluated feedback from attendees, businesses, and community partners, making adjustments whenever possible to improve the experience while balancing operational needs.

03. Libation Zone

The Libation Zone proved to be a successful pilot program for Quincy Square, breaking away from the traditional beer garden model by allowing guests to enjoy beverages throughout the event space while watching matches. We look forward to continuing our partnership with the Washington State Liquor and Cannabis Board to build on this model for future events.

FAN ZONE RECAP VOLUNTEER SUPPORT

The success of the Fan Zone was made possible by an incredible team of volunteers.

Over the course of 12 major events (11 Fan Zones plus the Bremerton Beer Festival), an estimated 600 volunteer hours were contributed, with approximately 5–10 volunteers supporting each event.

Volunteers assisted with setup, guest services, concessions, wayfinding, and cleanup, playing a critical role in creating a safe, welcoming, and memorable experience for our community.

Volunteer appreciation party is in the works, stay tuned~

THANK YOU!
